Therefore, the Bank would like to have options to revisit the arrangements and terms of contract as well as to re-price the same after the contract term on mutually agreed terms if necessary.

The Bank expects the benefits from any un-anticipated decrease in technology infrastructure costs, over the term of the contract due to reduction of prices, efficient use of IT infrastructure / reduction of statutory charges, etc. and operations management methods that yield more efficient operations, to be passed on through re-negotiation. No conflict between the System Integrator and the Bank will cause cessation of services. Only by mutual consent the services can be withdrawn. This

would include a well-defined reverse transition mechanism, which would normally require 3 to 6 months and will contain

- ▶ Procedures for transition and migrating to the new Managed Service Provider
- ▶ Time frame for parallel run
- ▶ Skill transfer mechanism and in specific cases the human resources requirement

- ▶ Failure of the vendor make good the situation within the remedy period
- ▶ The selected vendor commits a breach of any of the terms and conditions of the RFP / contract.
- ▶ The selected vendor becomes insolvent or goes into liquidation voluntarily or otherwise
- ▶ An attachment is levied or continues to be levied for a period of 7 days upon effects of the tender.

In case of order / contract cancellation, any payments made by the Bank to the Vendor would necessarily have to be returned to the Bank with interest @ 15% per annum from the date of each such payment. These payments to be returned would refer to those deliverables that will have to be reversed or redone post the termination of the vendor.

35. Limitation of Liability

Vendor's aggregate liability in connection with obligations undertaken as a part of the RFP regardless of the form or nature of the action giving rise to such liability (whether in contract, tort or otherwise), shall be at actual and limited to the Total Contract Value.
