

## MACRO DAILY

13 February 2020

### Macro developments

- India's CPI jumped to 7.6% in Jan'20 from 7.4% in Dec'19 led by increase in pulses, protein and cereal inflation. Core also rose by more than 40bps to 4.2% in Jan'20 and the increase was broad-based, with telecom & communication rising the most. Additionally, IIP surprised negatively at (-) 0.3% in Dec'19 vs 1.8% in Nov'19. Capital goods (-18.2% vs -8.2%) contracted the most followed by consumer durables (-6.7% vs -1.6%).
- RBI reported that currency in circulation (CIC) increased by Rs 265.5bn and stood at Rs 23.3tn for the week ending 7 Feb 2020. Reserve money rose by 11.4% on a YoY basis, compared with 16.7% a year ago. On a FYTD basis, reserve money increased by only 6.3% as against 9.2% last year.
- Industrial production in Euro Area fell to 4-year low in Dec'19 to (-) 2.1% (est. -1.7%) from 0% in Nov'19 on a MoM basis. This was led by capital (-4% vs 0.9%) and intermediate goods (-1.7% vs -0.8%). Production declined significantly in all major economies in Dec'19 suggesting that GDP growth in Q4CY19 might be weaker than previously estimated.

### Markets

- Bonds:** Barring China (flat), global yields closed higher, as concerns over coronavirus eased further as new cases continue to drop. US 10Y yield rose by 3bps (1.63%). Oil prices rose by 3.3% (US\$ 56/bbl) after OPEC hinted at production cuts. India's 10Y yield rose by 1bps to 6.48% and is trading a tad lower (6.47%) today despite higher than expected inflation print.
- Currency:** Except GBP and AUD, other currencies closed lower. DXY rose to its highest in 4-months as concerns over the spread of coronavirus receded. EUR fell by (-) 0.4% to its lowest since May'17 on the back of weak industrial production print. INR was marginally lower. It is trading further lower today while other Asian currencies are trading mixed.
- Equity:** Global indices closed higher as coronavirus fears continue to subside. Amongst other indices, Dow, Dax and Shanghai Comp rose by 0.9% each. Sensex (0.8%) too ended in green driven by global cues and supported by gains in banking and metal stocks. It is trading lower today in line with other Asian stocks.
